

**REFERENCE NUMBER:** SPAPC.ERDF 004/2018  
Restoration of St Paul's Anglican Pro-Cathedral

## **RE-ISSUE**

**TENDER FOR THE RESTORATION OF THE EXTERNAL & INTERNAL FABRIC OF THE  
TOWER & SPIRE, & OTHER INVESTIGATIVE AND ANCILLARY WORKS**

### **CLARIFICATION NOTE 1**

**Date:** 29/05/2019

Clarifications:

**1. Clarification sought:**

**What is the number of electrodes needed since Drawings ICCP 001, and 002 show that x2 No. Ag/AgCl KCl and x2 No. Pseudo electrodes are to be installed, but BoQ Item D, D1.2.6 states that x120 No. are to be priced.**

**Clarification reply:**

There are four (similar) zones and each zone requires 2 Ag/AgCl reference electrodes and also 2 Pseudo reference electrodes. A total of 16 reference electrodes in total. Item D1.2.6. should be 16 No. and item D.1.2.5 should be 1.00 sum.

**2. Clarification sought:**

**There are x2 No. local rectifier units (LRUs) each comprising three (3) d.c. outputs rated at 1A/12V d.c. are specified, however the drawings only show 4 zones, but the LRU's make 6 zones, what shall we price for since it is unclear?**

**Clarification reply:**

The specification is for 4 zones and the CP design is based on typical equipment (which have 3 zones for a local rectifier unit). So for 2 LRUs, two zones would be unused (or possibly used as spares for any other CP applications within the tower).

---

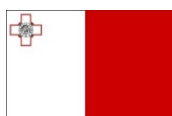

All other tender documents, conditions and requirements, which are not superseded by this clarification, remain in place.

## Reminders:

1. Bidders are reminded that the deadline for submission is 17<sup>th</sup> June 2019 at 10:30am.
