

NEWSLETTER SEPTEMBER 2019

Dear Friends and Supporters,

RESTORATION OF THE CATHEDRAL

Since the last Newsletter we have been pressing ahead with our efforts to get restoration work on the cathedral started. You may recall the good news that we had available to us 4.2 million euros from EU funding which (together with 1.05 million euros we are obliged to contribute as our co-financing to the project) would give us 5.25 million euros in total – a considerable boost towards reaching the 8.6 million euros we estimate is needed to complete the whole project.

We decided that for planning purposes we would use the 5.25 million euros in two ways - by allocating 2.5 million euros towards the restoration of the tower/spire. - and the balance of about 2.7 million euros in addressing the physical deterioration of the fabric of the church. We accepted that the restoration of the roof/ceiling (at an estimated cost of about 3.6 million euros) would depend on whether the government would be able to give us further EU money as a result of an underspend elsewhere in government EU infrastructure funding.

Since that meeting 6 months ago, we have been actively engaged on several fronts.

Our architects, Architecture Project, and their team of experts, have been drawing up the contract for the letting of the tower tender. That was tendered for the first time in the Spring.

Disappointingly, the two bids submitted failed because they were non-compliant, so we immediately embarked on re-issuing the tenders, with the same two companies being asked to re-submit their bids. Those bids are now in and we are currently studying the outcome and the prognosis for the future.

Now we are at the point where those new bids for the project on the tower are in the process of being analysed and adjudicated. The complexity of drawing up those tenders – especially as they affect the construction of scaffolding round the tower/spire up to a height of 200 feet (exceptional in Malta) – has been highly challenging. The detailed analysis of the subsequent bids has meant a huge amount of really detailed work and extremely careful judgement. Architecture Project and their team of experts as our advisers on EU funding have been absolutely dedicated to finding solutions to an extraordinarily demanding project.

We are now waiting with bated breath to see if, and when, work on site can begin.

In parallel, our architects have been carrying out further comprehensive tests of the fabric of the church with a view to advising us which parts of the structure need to be restored within the money available to us.

His Excellency, Dr George Vella, The President of Malta

It is a great honour to announce that His Excellency, Dr George Abela, The President of Malta, has kindly consented to be the Principal Patron of the Save Valletta Skyline Restoration Appeal in succession to Her Excellency, Marie-Louise Coleiro Preca. Dr Vella said: “May I say that it would be an honor and a pleasure for me to be associated with the much needed restoration appeal of this iconic and historical building in the capacity you so kindly proposed. I consider this to be a very worthy cause, and augur that the appeal will find the funds necessary to salvage this architectural gem”.

His Royal Highness, the Prince Philip, Duke of Edinburgh

With great pleasure we can announce that His Royal Highness, Prince Philip, who has been the Patron of the Friends of St Paul’s Anglican Pro-Cathedral for 55 years, has kindly donated a most generous sum to the Save Valletta Skyline Restoration Appeal.

The Save Valletta Skyline Restoration Appeal

We have reported above the huge contribution of 4.2 million euros which has been made available to The Restoration Appeal through European Union Infrastructure Funding. This has been a marvellous fillip to our Appeal and it has enabled us to get going with the vital restoration project.

But, as you will be aware, part of the deal with the EU is that it is our responsibility to find 20% of whatever it has contributed. Thus, 4.2 million euros requires us to find 1.02 million euros for what is known as co-financing. Although up to the turn of this year we had raised over 1 million euros through the generosity of major donors and charities in Malta and Britain - to whom we are enormously grateful - that sum is inevitably being reduced as the restoration process gets under way.

An important element of this has been the vital need to find out precisely what major structural elements in the cathedral – especially those affecting the stability of the tower/spire – require urgent attention. Professional fees and technical tests have placed considerable demands on our resources.

It is therefore essential that the great efforts which have already been made to approach suitable donors, and to raise funds both in Malta and London through events fund-raising efforts, are relentlessly continued. While we have enough funding to get the project off the ground, more will be required in future if we are to complete this ambitious project as we would wish. Please use every friendly contact you have to generate new funding.

Thank you very much for your past interest and support, which we hope will continue in the future.

Martin Laing and Martin Scicluna
Joint Chairmen, Save Valletta Skyline Restoration Appeal

RECENT FUND RAISING EVENTS IN MALTA

The **BROWNIE BAKE OFF** at the Carob Tree in St Julian's on 15th June, sponsored by **Carob Tree**, the **Mediterranean Culinary Academy** and **Park Towers** and presented by Jo Caruana was a great success. The four contestants made their delicious brownies under intense pressure in our pop-up pod kitchen, and kindly made extra batches to sell all afternoon in aid of our appeal. Congratulations to the winner, Thomas Camilleri, assisted by Michael Zammit Maempel. €385 was raised during this fun event.

A panel discussion, **BLOCKCHAIN for Beginners**, was held at Palazzo de La Salle, Valletta on 28th March, led by James Wicker, with Jasper de Trafford, Mark Bugeja and Matthew Sacco lending their expertise to help the audience understand the

world of blockchain and what the technology could mean for our future. As individuals and as a country. An entertaining and enlightening presentation and discussion was followed by a Q&A session. We are grateful to our techie team, and to **Charles Grech, Fifth Flavour** and **Jo Caruana's** team at **Writemeanything**, who sponsored this event, which raised €1200 for the appeal.

THE SEABOURN ENCORE LUNCHEON on 10th August began with champagne on the Observation deck, followed by a tour of this luxury ship and a delicious three course meal with wine for 44 people, who were looked after so well by a charming crew, and disembarked with amazing goodie bags from Seabourn as mementoes of a wonderful day. Our most sincere thanks go personally to **Jim Dunn**, who made the day possible, to **Lynn Narraway**, Seabourn MD of UK and Ireland for hosting the lunch and to the **Board of Seabourn** for their generosity and support. This event raised an excellent €6,800 for the appeal and we might be lucky enough to receive another invitation next year.

FORTHCOMING EVENTS IN MALTA

For further information on all these events, please contact Petra Galea Debono on (+356) 27229169 during working weekday hours or e mail: petragd@guisthall.com

Thursday 3rd October 2019

AN EVENING WITH CLARE FRANCIS

Clare Francis is the author of 11 novels, including 'Night Sky' which shot to number one in the Sunday Times bestseller list and spent 6 weeks in the New York Times top 10. However, she was first known as a yachtswoman who twice sailed across the Atlantic on her own, and was also the first woman to captain a successful boat in the Whitbread Around The World Race.

Venue: Royal Malta Yacht Club

Admission donation: €25 per person including wine and canapés
There is an optional dinner following the presentation at a price of €37.50 to include a three course meal, wine and water

Tuesday 22nd October 2019

Venue: St Paul's Anglican Pro-Cathedral, Valletta

Admission donation: to be confirmed

Tuesday 7th April 2020

MALTA'S PLACE IN NAPOLEON'S PLANS

A TALK BY ADAM ZAMOYSKI

Adam Zamoyski is a renowned historian and author of more than 12 books, including "Napoleon, The Man Behind The Myth", the major best seller '1812: Napoleon's Fatal March on Moscow' and 'The Forgotten Few: The Polish Air Force in the Second World War'. Zamoyski writes "*Napoleon inspires passionately held and often conflicting visions. Was he a god-like genius, romantic avatar,*

megalomaniac monster, compulsive warmonger or just a nasty little dictator? While he displayed elements of these traits at certain times, Napoleon was none of these things". During his short time in Malta, Napoleon certainly changed laws which remain to this day. This is our unique opportunity to find out more from the world's authority on an intriguing personality.

Venue: to be confirmed

Admission donation: €25 per person including wine and canapés

May 2020

Talks by experts on interior design and making the most of your garden, terrace or balcony.

Further details to be confirmed

Friday 18th September 2020

Further information in November, invitations out in January.

The UK Events Committee:

Chairman: Joanna Oswin Arabella Dorman, Sibella Laing, Charlotte Hamilton-Hill, Carolinda Maitland, Diana Jervis-Read, Boo Nicholson, Caroline Scallo

THE VISITOR CENTRE IN THE UNDERCROFT OF ST PAUL’S PRO-CATHEDRAL

The Visitor Centre which is being created in the Undercroft is an intrinsic part of the cathedral and restoring it has been the first step in the regeneration not only of the cathedral, but also the whole of that part of Valletta. As you look around you when you visit, you can see the progress achieved in two years and the wonderful work which is under way to complete the visitor centre, now well advanced. The Undercroft and lower courtyard are being turned into a modern community and visitor experience to provide tourists and local visitors with further information and interesting historical facts about the cathedral and the surrounding area of Valletta. A privately run trattoria is up and running and well worth a visit. It offers excellent coffee and a Mediterranean selection of dishes to cathedral visitors and the local population.

A grant from the Good Causes Fund has enabled us to set up twelve totems or stand-alone posters recounting the history of the building from the time of the Knights, the building of the Cathedral, culminating with the church today and its integral place in the Valletta landscape. A film theatre screening a looped film depicting that part of Malta’s history which has been shared with St Paul’s

Anglican Pro-Cathedral. Cathedral artefacts dating back to the time the building was inaugurated are displayed in handsome illuminated cabinets. Eventually, the Cathedral bells will be displayed in the Centre along with their manufacturing history which the bells share with that of Big Ben and the Liberty Bell. Plans exist to add to the Centre's displays. It is too early to announce what these will be, but they will be designed to draw in increased number of visitors.

A location and Events mobile App has been created to attract tourists and visitors to the cathedral. It is available for downloading now at zero cost. The mobile App will allow tourists to locate the cathedral through Google maps encouraging them to move off the popular beaten track of central Valletta .It will act as a trail that stresses the importance of Maltese history and the unique culture of an Anglican Cathedral situated on Malta's most distinctive skyline. It will ensure better cultural knowledge and accessibility to the cathedral and near-by cultural heritage buildings.

We are now going to give you an opportunity to view the App and to see for yourselves something of what we have been talking about in this Newsletter. You can download it by typing **st paul pro** into Google Play or the App Store. The App itself will be updated frequently and in time features for which the visitor will have to donate will be incorporated. Also noteworthy will be the Booking System which will allow the App to take payment and issue tickets for Restoration and Cathedral Events.
